Equine Externship Opportunity in Vermont

Vermont Large Animal Clinic Equine Hospital is offering an externship opportunity to 3rd and 4th year veterinary students interested in pursuing a career in equine medicine, surgery, and/or field service. We are a six doctor practice located in Milton, Vermont, 20 minutes north of Burlington. Located on 30 acres of rolling green meadows, we are just minutes from Lake Champlain and a short car drive from bustling downtown Burlington. With two Board Certified Surgeons and a Board Certified Internist on staff, we provide referral service to Vermont, western New Hampshire, and upstate New York. In house, we do elective and emergency soft tissue and orthopedic surgeries, as well as lameness, neonatal medicine, colic, respiratory, and neurologic cases. We have an in-house laboratory with CBC, Chemistry, fibrinogen, and joint and belly fluid analysis. Our field service includes routine care, as well as reproduction, lameness with digital radiography, shockwave, ultrasonography, and portable gastroscopy. We provide 24-hour emergency in-house, referral, and field service.

Externs are encouraged to stay for two weeks, but one week blocks are available. Housing is provided with laundry, kitchen, and internet on site. Externs help with in-house cases, as well as assist in the field.

Each year, we offer a one-year internship to a graduating veterinarian interested in further training in medicine and surgery. Although not a requirement, externships are encouraged prior to applying for our internship program.

If interested in applying for an externship at VLACEH, please contact Dr. Jenny Wilkinson at jwilkinson@vlac.net. More information is provided on the AAEP Avenues website at www.aaep.org or on our website at www.vermontequine.com.
