To: Students of Veterinary Colleges and Universities  
FROM: Windham Animal Hospital  
RE: Internship opportunity  
DATE: March 2011

To Whom It May Concern:

We are privileged to be able to offer an internship to an interested student for our mutual advantage. We respectfully request that you post this attached listing in an appropriate place so that interested parties may respond. Perhaps you have a bulletin board or postings for opportunities that students can check. Thank you very much for your cooperation. Feel free to contact John Klardie if you have any questions at (603) 434-0346.

Veterinary Student Internship

Windham Animal Hospital is a busy 5-doctor companion animal practice located in southern New Hampshire, equidistant (approximately a one-hour drive) from metropolitan Boston Massachusetts, the seacoast of New Hampshire, and the mountains of northern New England to the north. The town of Windham (population approximately 15,000) is a thriving community; much of our clientele comes from the neighboring towns of Derry (population 35,000) and Salem (population 35,000). We offer housing, a stipend, and a wonderful group of doctors and support staff. This internship provides an extremely valuable opportunity for the motivated candidate. Please send a cover letter and resume listing your experience, expectations and veterinary career plans. Mail to Windham Animal Hospital, 176 Rockingham Road, Windham, NH 03087  Attn: John Klardie
