This isn't your typical summer camp. During the five days you will spend at OSU, you will learn so many interesting things about becoming a vet. Here you will see what it actually means to become a vet and what steps you have to take to get there. My camp mentors answered every single question I had about their experiences in vet school and it helped me gain a better understanding of what veterinary school is like. You will learn things about vet school you can't find on the internet or in a brochure. This experience absolutely changed my life!

Something I will always cherish is the experience I had staying in the dorms and being with the other campers. I was totally in my element with these awesome people! It gives you a real understanding of what living on campus is really like.

This experience showed me that becoming a vet isn't impossible, though it takes a lot of hard work and dedication. My passion for helping animals and learning new things will be my fuel to keep me going strong through eight more years of school. I am so excited to start my journey into the OSU College of Veterinary Medicine! See you in a few years!
