

Name of applicant

**Applications are due by January 30, 2018** (12 midnight; late applications will not be considered)

**Please submitted applications electronically by email to:**

Dr. Katie Curran, 293 Magruder Hall, College of Veterinary Medicine, Oregon State University, Corvallis, OR 97331,  
[Katie.Curran@oregonstate.edu](mailto:Katie.Curran@oregonstate.edu)

**The Boehringer Ingelheim (BI) program is open to students from other colleges of veterinary medicine in and outside of the United States.** Information on the BI Veterinary Scholars Program (MVSP) can be found on the following websites:

<http://vetmed.oregonstate.edu/research/summer-research-programs>.

Students applying to the program need to commit to a **12-week program**. In association with the research experience, there is a block of **seminars** and all students are expected to participate in these activities. A field will also be offered. **Students participating in this program are also expected to present their research findings as oral presentation at the College of Veterinary Medicine Research Day in early September. BIVSP scholars** also present their findings in poster format at the **National Veterinary Scholars Symposium held at the beginning of August**.

Students with graduate degrees or extensive research experience are **not** eligible for funding through the BIVSP program.

Current GPA in DVM program

GRE scores (if applicable)  MCAT scores (if applicable)

If you have a graduate degree, what was the area of study?

Have you had prior research experience?  If yes, attach one paragraph or 1/2-page description.

**In no more than one page (12-point type, 1-inch margins), please address the following issues** (use page 2):

- What is your interest and motivation for applying to the program?
- What are your expectations about the program and what do you hope to accomplish?
- What do you think makes you an outstanding candidate for this opportunity?

**In one page (12-point type, 1-inch margins), please describe the research you propose to do.** Please include background, hypothesis, specific aims/experimental question, expected results, and simple budget (use page 3).
