REAL-TIME ASSESSMENT

NOTE TO CLINICIANS: Completion of three real-time clinical assessments (RTAs) are required for graduation for the Class of 2019. RTAs are intended to provide immediate and useful feedback to students on their mastery of a variety of clinical skills. Agree to complete this form only if you agree to give immediate feedback to the student directly following completion of the case. In addition, the student must request an RTA be completed prior to start of a case. If this does not happen, do not agree to perform the RTA.

Please Circle ONE: Medicine Surgery Disease Prevention/Biosecurity

1. Unsatisfactory performance
2. Performs below the level expected for a 4th year veterinary student; significant improvement needed
3. Acceptable performance but significant improvement needed to be practice ready
4. Performs at or near the level expected for an entry level new graduate
5. Performs at level expected of an intern or an experienced (young) graduate veterinarian

Note: If any scores of 1 or 2 are given, the evaluator must provide written comments explaining the reasons for the scores given.

Competencies
1. Comprehensive patient diagnosis
   A. Patient assessment skills
   B. Appropriate use of diagnostic testing
   C. Record Management

2. Comprehensive treatment planning
   A. Development of a treatment plan
   B. Appropriate use of patient referral

3. Patient welfare
   A. Anesthesia management
   B. Pain management
   C. Patient care

4. Surgery skills
   A. Surgical knowledge
   B. Surgical skills

5. Medicine skills
   A. Medicine knowledge
   B. Medicine skills
6. Emergency and intensive care
   A. Knowledge of emergency medicine  1  2  3  4  5  NA
   B. Emergency medicine skills        1  2  3  4  5  NA
   C. Knowledge of intensive care medicine 1  2  3  4  5  NA
   D. Intensive care skills             1  2  3  4  5  NA

7. Health promotion and disease prevention
   A. Knowledge of disease prevention    1  2  3  4  5  NA
   B. Knowledge of zoonotic disease     1  2  3  4  5  NA
   C. Knowledge of food safety          1  2  3  4  5  NA

8. Professionalism and conduct
   A. Professionalism                   1  2  3  4  5  NA
   B. Communication with clients        1  2  3  4  5  NA
   C. Communication with the healthcare team 1  2  3  4  5  NA
   D. Ethical conduct                   

9. Critical analysis of new information
   A. Knowledge of veterinary literature – general 1  2  3  4  5  NA
   B. Knowledge of veterinary journals and research 1  2  3  4  5  NA

Comments: (Please provide a constructive critique designed to improve the student’s clinical competency):

Please check off when completed:
☐ I have discussed this assessment with the student and provided suggestions for further development of this student’s clinical skills.
